

Adama Emmanuel Traore

PROFESSIONAL CAREER

March 2022 - Current / Developer Java full stack & Front end Siemens | Via Vipiteno, 4 - 20138 Milan, Italie - CDI

Front end developer in the division "smart infrastructure" of the multinational Siemens, the company is located in Milan.

The skills acquired during this experience are:

• Angular • Unit tests • SCSS • Typescript • NPM • YARN • Agile method • Git • GitGraph • Node.js • HTML5 • CSS • etc...

By graduating as a full stack Java developer, I continue outside of work, my personal full stack projects using the majority of technologies learned, example, Front end: Angular, Back end: Java / Spring boot, Database: MySQL Workbench.

May 2019 - August 2021 / Worker Romanino srl | Via Vincenzo Toffetti 125 bis - 20139 Milano, Italy- CDD.

A seasonal (temporary) job that I did while studying the basics of computer science by myself and also preparing for the entrance test to the technical high school of computer science. I was the employee who took care of the loading and unloading of the goods in the Romanino srl food company.

January 2018 - February 2018 / Electrician (internship) Raineri Marco Systèmes électriques | Milan, Italie.

School internship period of about a month, with an electrician expert who has allowed me to expand my knowledge thanks to his experience in the sector.

EDUCATION

September 2021 - July 2022 - IT higher technical institute - Development in Java Full stack Web and Android - I.T.S Angelo Rizzoli, Via Benigno Crespi 30 -20159, Milan, Italy.

Computer programming specialization school like Java Full stack web and Android developer.

September 2019 - September 2020 - Mechatronics higher technical institute Foundation - I.T.S Lombardia Meccatronica, Viale Matteotti 425 - Sesto San Giovanni, Milan, Italy.

Higher training course for the maintenance of rail and road vehicles, a path that subsequently led me to make a BIG life choice.

September 2011 - June 2019 - High school for electrical engineer, Via Martiri Cefalonia, 46, 20097 San Donato Milanese, Italy.

High school for electrical technicians, where the behavior of the electric current in our systems is studied, and how to best wire them following the ISO rules. To wire up, you have to follow sometimes complex wiring diagrams.

📍 Via degli umiliati 36/A, 20138 Milan, Italy.
Chemin du devin 57B, 1012 Lausanne, Switzerland.
