

Adama Emmanuel Traore

PROFESSIONAL PROFILE

March 2022 - Present - Front-End Developer at Siemens - Via Vipiteno, 4 - 20138 Milan, Italy.

I am a front end developer in the "smart infrastructure" division of Siemens, my main missions are:

- Experience and development with **HTML5, CSS3, SCSS**
- Experience and development with **TypeScript**
- Experience and development with **Angular 2+** (understanding of routing and navigation concepts, proficiency in using RxJS, mastery of Angular CLI and much more).
- Experience with writing unit and integration tests with **Jasmine, Karma**
- Experience and development with **REST APIs**
- Experience and development with data management tools dependencies such as **YARN, NPM**
- Experience and development with **Git**
- Experience and development with **NodeJS**
- Experience with Agile methodology
- Experience in participating in the review and validation of the code of the different stories.

May 2019 - August 2021 - Worker (Summer work for students) at Romanino srl - Via Vincenzo Toffetti 125 bis - 20139 Milan, Italy.

January 2018 - February 2018 - Electrician (high school internship) at Raineri Marco Electrical systems - Milan, Italy.

TRAINING

September 2021 - July 2022 - Higher Technician | Java Full stack Web and Android development for industry 4.0 - Istituto Tecnico Superiore Angelo Rizzoli, Via Benigno Crespi, 30 - 20159 - Milan.
Specialization school in computer programming as a Java Full stack web and Android developer, 360-degree computer training.

September 2019 - September 2020 - Higher Technician in mechatronics - Fondazione Istituto Tecnico Superiore Lombardo, Viale Matteotti 425 - Sesto San Giovanni, Milan.
Higher training in the maintenance of railway and road vehicles, a path that later led me to make a BIG life choice.

September 2011 - June 2019 - Electrical Engineer, Via Martiri Cefalonia, 46, 20097 San Donato Milanese.

High school for electrical engineers, where I studied the behavior of electric current in our systems, and how to best wire them following ISO standards. To carry out the wiring it is necessary to follow sometimes complex electrical diagrams.

Chemin du devin 57B, 1012 Lausanne, Suisse.

Via degli umiliati 36/A, 20138 Milan, Italy.
